Camellia Colors and Descriptions

Blue Danube Japonica Camellia

Slow growing evergreen shrub of compact habit. Medium rose pink double in midseason. Partial shade.

Shi-Gashira Sasanqua Camellia

- Reddish pink blossoms delight for autumn!
- Blooms from late September to November

Shi-Shi-Gashira Camellia, will lend its special flowering in autumn to early winter. Its deep magenta double blossoms are perfect in a woodland or Asian garden. Camellias are easy to grow. Put some mulch over its roots when you plant and make sure it gets enough water the first year. Then they're on auto-pilot after that. Shi-Shi Gashira is considered by many to be the best landscape camellia. Its smaller size makes it more versatile and the red - pink blooms look better than any rose you can grow. Eventually reaches 5 feet in height. Use it as a foundation hedge, accent evergreen or entryway plant.

Blood of China Japonica Camellia

Evergreen shrub. Grows in an upright but compact manner 8 to 10 feet tall. Foliage is dark green, and glossy. Needs part to full shade, a well-draining, acidic soil, and regular water.
Flowers in early Spring, late Winter and mid Spring.

Kramer’s Supreme Japonica Camellia

- Fragrant red blooms that last for months
- Low maintenance and easy to grow
- Perfect around patios

The Kramer’s Supreme Camellia boasts huge 5-inch blooms that last for an amazing 4 months! You will be astonished at the number of brilliant red blooms that will coat your camellia from January thru April.
This plant adds tons of color to any landscape, especially since it begins to bloom when other plants are dormant.
It is not typical for Camellia blooms to have a fragrance, but this camellia happens to be one of the few varieties that offer a delightful scent.
## CAMELLIA COLORS and DESCRIPTIONS

### Marie Bracey Japonica Camellia

The multi-shaded pink petals of the 'Marie Bracey' Camellia japonica are dark pink around the edge and light pink in the middle which creates an interesting pattern. The smooth pink flowers are symmetrical with random blotches of light pinks and white. The new evergreen leaves of the 'Marie Bracey' Camellia japonica are glossy light green and darken as they mature. Grows 6-7' tall and 4-5' wide.

### Mathotiana (Rubra) Japonica Camellia

Slow growing, upright to spreading shrub or small tree with age. Oval, glossy, leaves and profuse winter to spring blooming flowers in milder climates. A true heritage plant, and favorite of Southern gardens.

### Morning Glow Japonica Camellia

Grows to a mature size of 7 feet tall by 8 feet wide. This shrub enjoys partial shade and provides complimentary fall color. The Camellia flowers in December to early spring with white blooms.

### Pink Perfection Japonica Camellia

A dependable older variety with excellent name recognition that produces medium sized pale pink formal double flowers in mid-season. The plant has upright and compact growth. It is a compact grower, but with age, can reach heights of 5-6'.
CAMELLIA COLORS and DESCRIPTIONS

Professor Charles S. Sargent Japonica Camellia
Bears peony-form flowers in an intense scarlet. Slow growing, upright to spreading shrub or small tree with age. Has a prolonged blooming cycle, making it a perfect cut flower which lasts several days.
Grow 10'-12’ tall and 3'-10’ wide.

Taylor’s Perfection
Flower is evergreen with soft pink blooms. The large cluster of golden yellow stamen glows brilliantly in the afternoon sun. Grows 10-12’ tall and wide.

White Empress Japonica Camellia
Puts forth semi-double to double flowers in pure white.
Grows 10'-12’ tall and 5’-10’ wide.

Bonanza Sasanqua Camellia
The Bonanza Camellia is a nice flowering shrub. It is rapidly growing with a spreading growth habit. Bonanza is mainly known for its beautiful fall flowering. The flowers are red and perfect for cutting. Bonanza is an early season bloomer. 4’ to 5’ tall and spreading wider.
CAMELLIA COLORS and DESCRIPTIONS

Cotton Candy Sasanqua Camellia
Dense, spreading evergreen shrub with relatively large semi-double pink flowers, scented and ruffled and with a lot of petaloid stamens. Dense upright spreading growth habit >>> to 6-8’+ (semi-weeping with age)

Northern Lights Sasanqua Camellia
The vigorous plants have an upright, spreading habit and medium height. The flowers are white with rose edges and flecks and are single with many gold stamens. The large flowers are produced in the leaf axils (joint between leaf and branch), have waxy petals and appear from fall to mid-winter. What these blooms lack in size compared to common camellias, they make up for in numbers. It is not uncommon to see plants covered in blooms with many buds yet to open.

Stephanie Golden Sasanqua Camellia
Stephanie Golden is a profuse blooming camellia variety. Like other camellias Stephanie Golden’s best features are its evergreen foliage and fall flowering. Once mature, it can reach a height of up to 10 feet with a slightly smaller spread.

Yuletide Sasanqua Camellia
Single, brilliant, fiery red blooms centered with bright yellow stamens makes this a beautiful addition to the winter garden. Blossoms stand out in high contrast against glossy, dark green. Excellent choice for a colorful hedge or screen, espalier, and border shrub. Mid-season bloomer. Evergreen. The Yuletide Camellia grows to an impressive 8-10 ft. high and 6-8 ft. wide.
CAMELLIA COLORS and DESCRIPTIONS

Kanjiro Sasanqua Camellia
A truly stunning cerise pink semi-double bloom edged in red with golden stamens and a slight fragrance. Truly outstanding cut flower. Dense semiweeping habit and glossy, dark green foliage produces an exceptional evergreen for foundation planting and backgrounds. Mid-season bloomer. Evergreen.

Sparkling Burgundy Camellia
Produces peony-form flowers in a deep purplish-red. Early to mid-season.
